

Policies & Procedures

Mission and Purpose of Creative Dunblane

Creative Dunblane will be a sustainable project and a safe, inclusive and collaborative community space where anyone in the Dunblane area can learn, create and innovate.

We will do this by:

Fostering a collaborative approach so individuals in the community, of all backgrounds, ages and skill levels can participate, learn and contribute.

Supporting and promoting the safe use of all machines

Sustaining a committed volunteer base that is central to the project.

Being a steppingstone: facilitating and providing guidance for projects that outgrow Creative Dunblane.

Making best use of available funding to sustain a financially viable and well managed project.

Our Values

Diversity: embracing and capturing the diversity of the local community, in background, skill levels, approaches and project ideas.

Openness: providing wide access to projects at various stages, free of judgement.

Facilitating: helping people to realise their ideas themselves.

Sustainability: working using sustainable practices.
